### EXAMINER'S AMENDMENT

1. This action is responsive to the following communication: The BPAI Decision rendered on 11/19/10.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Owen J. Gamon (Reg. No 36143) on 2/04/11.

The application has been amended as follows:

#### Claim 6:

An apparatus including a processor comprising:

~~means~~ receiving unit for receiving an edit reciprocal link option and a selected section of a first page from a user interface;

~~means~~ adding unit for adding at least one reciprocal tag to the first page based on the edit reciprocal link option and the selected section of the first page, wherein a first link to a reciprocal site is in the selected section, and wherein the at least one reciprocal tag identifies the selected section that includes the first link;

~~means~~ reciprocal tag finding unit for finding the at least one reciprocal tag in the first page;

Art Unit: 2179

~~means~~ reciprocal page finding unit for finding a reciprocal page based on the at least one reciprocal tag, wherein the reciprocal page is at the reciprocal site, wherein the finding further comprises finding a record based on the reciprocal tag that identifies the reciprocal page;

~~means~~ reciprocal link determination unit for determining whether a reciprocal link exists in the reciprocal page to the first page; and

~~means~~ action determination unit for determining an action based on a user-interface option if the reciprocal link does not exist.

**Claim 7:**

The apparatus of claim 6, further comprising:

~~means~~ warning unit for issuing a warning if the reciprocal link does not exist.

**Claim 8:**

The apparatus of claim 6, further comprising:

~~means~~ removing unit for removing the first link from the first page if the reciprocal link does not exist.

**Claim 9:**

The apparatus of claim 6, further comprising:

~~means~~ removing unit for removing the first link from the first page if the reciprocal link does not exist and a number of times the reciprocal link has not existed exceeds a threshold.

### **Allowable Subject Matter**

3. Claims 1-3, 6-9, 11-20 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claims 1, 6, 11 and 16, when considered as a whole, are allowable over the prior art of record.

Specifically, as mentioned in the BPAI Decision rendered on 11/19/2010, the prior art of record fail to clearly teach or fairly suggest the combination of following limitations:

- ❑ Adding at least one reciprocal tag to the first page based on the edit reciprocal link option and the selected section of the first page, wherein a first link to a reciprocal site is in the selected section, and wherein the at least one reciprocal tag identifies the selected section that includes the first link.
- ❑ Finding a reciprocal page based on the at least on reciprocal tag, wherein the reciprocal page is at the reciprocal site, wherein the finding further comprises finding a record based on the reciprocal tag that identifies the reciprocal page.

The dependent claims further add limitations to the allowable subject matter of the corresponding independent claims; thus are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
